Subject: Important Update

Dear friends and family,

On January 3, 2012 - without holding the **required** "open-to-the-public" oral argument hearing - to which I had literally begged all you attend so you could witness the blatant corruption for yourself and possibly stop it from continuing - Judge Bauman issued orders that could corruptly gut my post-conviction relief proceeding. See attached. In other words Judge Bauman deprived you-the-people of your right to "open court" proceedings - which are in place to expose and prevent judicial corruption.

On January 12, 2012 I appealed the illegal judgment modification and on January 13, 2012 I filed a motion to disqualify Judge Bauman for corruption and to strike his January 3, 2012 orders. See attached.

The situation is more serious yet - now with another judge blatantly violating specific laws, rules, rights, and judicial cannons to cover up for the judges, attorneys, prosecutors, troopers, and judicial conduct investigators already proven to have conspired to cover up the corruption during my prosecution for actions I was told to take during the Wolf Control Program.

We had a recent meeting with Representative Mike Chenault (800-469-3779) and Senator Tom Wagoner (800-964-5733) about the above and asked for an independent legislative investigation into at least judicial conduct investigator Marla Greenstein's corruption. They agreed this is so serious they will attempt to do this. I also asked for help with a meeting with the governor and Senator Wagoner suggested also meeting with the attorney general (Michael Geraghty was just appointed).

Although I know all of you have lives, familys, and other obligations I ask that you take a minute to call your legislators and ask that an independent legislative investigation (headed by Chenault, who is the Speaker of the House) be conducted into 25 year judicial conduct investigator Marla Greenstein's falsification of judicial investigations to cover up for corrupt judges and to ask that the governor (907-465-3500) and new attorney general meet with myself, Jackie, Senator Wagoner, Representative Chenault, and a couple witnesses.

You might also call the Anchorage Daily News (800-478-4200) and Peninsula Clarion (335-1251) etc. to suggest they get involved.

This isn't bribery by oil companies so they can make more profit off the public's oil - this is the systematic rigging of "legal" court proceedings, in violation of the specific constitutional rights for which the revolutionary war was fought and for which so many people have died to protect since. Unless addressed it means that when you end up in court - for DUI, lawsuit, divorce, or nothing at all - the rules and rights that protect you from losing everything do not have to be followed and you can be stripped bare for doing little or nothing wrong.

"During the debates on the adoption of the Constitution, its opponents repeatedly charged that the Constitution as drafted would open the way to tyranny by the central government. Fresh in their minds was the memory of the British violation of civil rights before and during the Revolution. They demanded a "bill of rights" that would spell out the immunities of individual citizens. Several state conventions in their formal ratification of the Constitution asked for such amendments; others ratified the Constitution with the understanding that the

amendments would be offered." U.S. National Archives and Records Administration

No matter the consequences I intend on taking whatever action is necessary to enforce our right to the required "open-to-the-public" hearings that will expose the corruption. I ask that when the time comes you show up with your spouse, grandparents, kids, neighbors, friends and whomever else you can possibly get to the courthouse - so you can bear witness to me kicking the ass of corrupt judges, DAs, attorneys, troopers, and judicial "investigators" - and so you can raise the alarm if they try to haul me off to jail for doing so. My long time business attorney, Dale Dolifka, who has personally testified to the U.S. Department of Justice about the blatant corruption in my case, has stated that while they will no longer try burning our house down to get rid of the evidence (because we have documented the evidence so well), my being jailed on false charges is a very real possibility. After a court hearing we usually have a nice get-together at Don Jose's in Kenai.

Again I respectfully ask all of you to carefully read the attachments and forward this email on to everyone you possibly can.

Sincerely,

Dave Haeg
