

AK Attorney General Jahna Lindemuth  
1031 West 4<sup>th</sup> Ave., Suite 200  
Anchorage, AK 99501  
907-269-5100

AK State Representative Mike Chenault  
145 Main St. Loop, Suite 223  
Kenai, AK 99611  
907-283-7223

Dear Attorney General Lindemuth and Representative Chenault,

My employer, \*\*\*\*\*, has asked: (1) I document proof of crimes and corruption in my state prosecution (for killing wolves same day airborne - after the state asked me, and gave me a wolf control permit, to do so), post-conviction relief (PCR), appeals, complaints to the Alaska Commission on Judicial Conduct (ACJC) and complaints to the Alaska Bar Association; (2) I give this documentation to Rep. Chenault; and (3) that I request Rep. Chenault place it in the hands of Alaska's Attorney General.

### **Major Issues**

(1) Judge Margaret Murphy destroyed evidence that would have exonerated me - evidence that proved I killed the wolves exactly where state officials told me to.

This is proven by attorney testimony that they submitted this evidence to Judge Murphy, the evidence disappeared while in Murphy's possession, and by the evidence's cover letter, which still remains in the official court record while the evidence itself is missing.

(2) Prosecutor Scot Leaders and Trooper Brett Gibbens falsified physical evidence and, while knowing it was false, presented it to my jury to convict me.

This is proven by pretrial tape recordings of Leaders, Gibbens, and others discussing how false hunting guide area boundaries had been hand-drawn on their FAA aircraft map, which they later presented against me at trial - to corruptly make it appear I was killing wolves in my hunting area instead of where state officials told me to. Leaders never provided a copy of the map or tape recordings prior to trial, in direct violation of a written pretrial discovery request. As a result we never found out the trial map had been falsified, or that Leaders and Gibbens knew it was false at trial, until years after my conviction.

(3) Leaders suborned, and Gibbens committed, trial perjury to convict me.

Leaders asking for and accepting Gibbens sworn trial testimony that the wolves were killed in my hunting area prove this. Only after Gibbens knew his falsehood had been discovered did he admit the wolves were not killed in my hunting area - perjury (AS 11.56.235). No one informed my jury this meant the state's case was false. Years after conviction we obtained pretrial tape recordings of Leaders, Gibbens, and others discussing how the wolves were not killed in my hunting area. Again, Leaders did not provide these recordings prior to trial, directly violating our discovery request. Gibbens affidavits, used to seize our business airplane/equipment, also falsified the locations.

Judge Murphy's on-record justification for sentencing me to 2 years in jail; forfeiture of airplane/property; about \$20,000 in fines; and 5-year hunting guide license suspension (destroying the business into which my wife Jackie and I had put everything), was "since the majority, if not all the wolves were taken in the area where you were hunting" – proving the devastating effect of Leaders/Gibbens false trial map and testimony.

(4) Leaders intentionally violated my immunity and committed perjury to cover up.

My attorneys testified Leaders gave me "transactional immunity" for my statement and for my placing wolf kill locations on Leaders/Gibbens FAA map. Transactional immunity prevents any prosecution and forces you to give information as the immunity replaces your right against self-incrimination – you can be placed in jail until you cooperate.

Attorneys testified Leaders outright told them "the state will not be honoring the immunity" after he got my statement/wolf kill locations. Leaders then quoted my ("David Haeg's") statement in his charging document forcing me to trial. We filed an affidavit protesting Leaders use of my statement - with copies delivered to Leaders by fax and personal courier. After conviction I filed a Bar complaint about this – and included Leaders charging document (written and signed by Leaders) as evidence. Leaders admitted he could not use my statement, but then testified he never used my statement and I never protested. Yet Leaders own charging document and my affidavit both prove perjury (AS 11.56.200). In spite of this evidence of Leaders corruption, including felony perjury to cover up, the Bar exonerated Leaders without investigation.

Leaders/Gibbens recordings of my pretrial interview capture them telling me to mark wolf kill locations on their FAA map "in ink". Trial recordings capture Leaders stating the FAA map he/Gibbens admitted to my jury as the evidence against me was the same he/Gibbens used when they interviewed me – another immunity violation. Leaders never provided map/recording copies prior to trial, violating pretrial discovery requests – which is why it was years after conviction before we realized Leaders/Gibbens trial map was the same I had been forced to place wolf kill locations on. Leaders doubly violated my "transactional immunity" – first by prosecuting me at all and then by using my statement and map to do so. When I was forced to place kill locations on the FAA map there were no hunting area boundaries on it – Leaders/Gibbens falsified them afterward in pencil. So while the kill locations I marked were correct in relation to the mountains, rivers, etc, - and where I had been told by state officials to kill wolves - Leaders/Gibbens false hunting area boundaries made it seem as if the kill locations were in my hunting area.

(5) Gibbens corruptly chauffeured Judge Murphy full-time during my trial, when my exonerating evidence vanished while in Murphy's possession, when Murphy decided all motions against me, and when Murphy sentenced me to years in jail and complete destruction of my family's business. Then both committed perjury to cover this up.

Trial took place at McGrath, Alaska (pop. 350) in an Iditarod Sled Dog Race building. Murphy flew in from Aniak to conduct my trial and, as there are no taxi's or buses in McGrath, was picked up and chauffeured everywhere by Gibbens, McGrath's only law-

enforcement officer. During an investigation both testified no chauffeuring occurred during my prosecution. Yet the official tape-recording of my prosecution captured Murphy and Gibbens themselves joking about the chauffeuring Gibbens was providing Murphy during my prosecution – and numerous witnesses testified under penalty of perjury they personally witnessed Gibbens chauffeuring Murphy during my prosecution.

(6) Leaders threatened my own private attorneys so they wouldn't protect me.

Long after conviction my own attorneys testified Leaders threatened to harm them if they defended me and that in fact they were harmed when they did try to help me – explaining why my own private attorneys let Leaders frame me after my wife and I gave them everything we had – savings, retirement, kids college funds, second house mortgage, maxing out credit cards, selling off everything, family loans, etc.

Mark Osterman, our third/last private criminal attorney, is tape-recorded stating it was the biggest sell-out of a client he had ever seen and that I didn't know my trial attorneys “were goanna load the dang dice so the state would always win.” Osterman is then himself tape-recorded stating he couldn't do anything that would expose the corruption.

When I asked to represent myself because I, and our business attorney Dale Dolifka, believed my own 3 criminal attorneys had sold me out, the court claimed I was “out in the ozone” and ordered that I submit to psychiatric evaluation. Psychologist Tamara Russell, after a full battery of tests, reported my intelligence “may be higher than average” and that I was “able to present a logical argument for self-representation”.

(7) The only investigator of Alaskan judges for the last 27 years is falsifying official investigations and then committing perjury to cover up – so corrupt judges, against whom valid complaints have been made, will not be removed from office.

The complaint that Gibbens chauffeured Judge Murphy during my prosecution was investigated by Marla Greenstein, the Alaska Commission on Judicial Conduct's only investigator of judges since 1989. Greenstein asked for names and phone numbers of witnesses. We provided her a list of four, which included former state troopers and retired U.S.A.F. pilots. Greenstein afterward exonerated Murphy – stating on tape that she contacted every witness we gave her, that no witness seen the chauffeuring, and that Murphy and Gibbens testified no chauffeuring took place during my prosecution.

After her exoneration the state assigned Judge Murphy to conduct my Post-Conviction Relief proceeding – over my protest she could not be assigned to decide a case in which she was a defendant. (One PCR claim was that Judge Murphy destroyed my exonerating evidence while it was in her possession and while Gibbens was chauffeuring her.)

I filed a motion to remove Judge Murphy for cause; Murphy ruled she could impartially decide the case against herself; and Superior Court Judge Stephanie Joannides reviewed Murphy's ruling. Judge Joannides asked for the evidence against Murphy so we again contacted all the same the witnesses Greenstein claimed to have contacted during her

ACJC investigation of Gibbens chauffeuring Murphy. Every witness swore out affidavits that no ACJC investigator had ever contacted them; each swore out affidavits that they each personally observed Gibbens chauffeuring Murphy during my prosecution; and each agreed to testify in court against Greenstein, Murphy, and Gibbens. We also provided Judge Joannides with the court tape recordings capturing Murphy and Gibbens joking about the chauffeuring Gibbens was providing Judge Murphy during my prosecution.

Over state's objection "this may be a career ender for Judge Murphy", Judge Joannides allowed me to subpoena Judge Murphy, judge investigator Greenstein, prosecutor Leaders, and my criminal attorneys; over state's objection ordered state to produce Gibbens to testify; and scheduled a two day evidentiary hearing to get to the bottom of what happened during my trial. Everyone, including my own criminal attorneys, filed motions to quash my subpoenas.

Judge Joannides ordered Greenstein to provide Greenstein's ACJC investigative report into the chauffeuring of Murphy by Gibbens during my prosecution – Greenstein refused to provide this report as ordered by Judge Joannides.

After Greenstein's refusal, Judge Joannides cancelled the evidentiary hearing – by ruling there was already enough evidence, even without an evidentiary hearing, that Judge Murphy must be disqualified from conducting my PCR. Judge Joannides ordered that during PCR I would be given an evidentiary hearing to prove what occurred with Murphy, Gibbens, Greenstein, and my exonerating evidence.

Judge Joannides certified as true all the evidence proving the corruption of Judge Murphy, Gibbens, and Greenstein - then sent it to the AK Commission on Judicial Conduct for prosecution of Greenstein. ACJC claimed the evidence "wasn't genuine" – so Judge Joannides re-certified the evidence and forwarded it to AAG Peterson; Alaska Judicial Council; Ombudsman; to the judge (Carl Bauman) now conducting my PCR; and again to the ACJC. To date no one has conducted an investigation.

Most of the witnesses who Greenstein falsified contacting and whose testimony she falsified asked to testify at an ACJC public meeting. The ACJC refused to allow their testimony – even though ACJC written rules state public testimony is encouraged during public meetings. When the witnesses stated they had a right to testify and intended to do so, the ACJC called a law-enforcement SWAT team to stop them.

We filed a Bar complaint against Greenstein (an attorney) for falsifying an official ACJC investigation to corruptly exonerate Murphy and Gibbens. Greenstein testified that during her investigation she not only contacted witnesses we had given her but also my trial attorney, Arthur Robinson. We immediately contacted Robinson, who is recorded stating:

*"Nobody ever contacted me to talk about Trooper Gibbens and – and – and Margaret [Murphy] running around together in the Trooper car... I saw it during the trial."*

Robinson later testified under oath at a tape-recorded deposition that no ACJC investigator had ever contacted him and that he personally remembered Judge Murphy being chauffeured by Gibbens during my prosecution.

A shocking fact: all 5 witnesses Greenstein claims to have contacted during her official ACJC investigation - even those Greenstein claims to have contacted on her own initiative - have sworn under oath they were never contacted by Greenstein and that Greenstein falsified the testimony they would have given had they been contacted.

Even though this was now proof that Greenstein committed perjury to cover up her corrupt investigation of Murphy, the Bar exonerated Greenstein without investigation.

Anchorage Daily News president/publisher Patrick Doyle stated ADN was threatened with lawsuits from Greenstein and multiple judges after ADN started printing the evidence that Greenstein was falsifying official investigations to exonerate corrupt judges. Doyle stated ADN could print no more, even just the facts, because those suing (the judges) would decide the lawsuits – meaning ADN would lose.

(8) Assistant attorney general Peterson corruptly interfered with a deposition; tried buying me off; and then retaliated by threatening my family, keeping my guide license after its suspension was over, and falsified the law so the state could keep the airplane.

My criminal attorneys, deposed long after my conviction, testified their tactic to defend me was to have me “fall on your sword”. AAG Peterson told them not to answer when I asked them what “fall on your sword” meant and if I ever agreed to do so. Peterson, on tape, said everything (airplane, fines, etc) would be returned if I agreed not to sue anyone. When I said I was going to sue/jail everyone, I was told to stop fighting or my “family would be crushed”. When the 5-year suspension of my hunting guide license was over, Peterson refused to return it. When he found out the airplane couldn’t be kept because it was owned by a corporation, Peterson, in violation of AS 12.55.088 and without a required hearing, modified the judgment against me 5 years after the fact so it included a judgment against the corporation, all without giving the corporation a hearing to protest.

(9) AAG Peterson is coercing/suborning perjury to cover up my corrupt conviction.

Judge Carl Bauman, assigned to my PCR after Murphy’s disqualification, refused to conduct the evidentiary hearing Judge Joannides ruled I must be provided during PCR. Without addressing any other issues, Bauman ruled Murphy/Gibbens’ corruption (which occurred during my trial) required my sentence be overturned but not my conviction. Yet rules state if there is a chance of any relief, you must be given an evidentiary hearing to prove your claims. In other words, the relief of my sentence being overturned was positive proof I had to be given an evidentiary hearing. Entitled to overturn my sentence without an evidentiary hearing, what would I be entitled to after an evidentiary hearing?

I appealed (to Alaska Court of Appeals) Bauman not overturning my conviction. Then I prepared to be resentenced. I stated 4 full days were needed for me to present testimony

and evidence proving I was framed and there was now an ongoing conspiracy to cover this up. AAG Peterson asked for a “protection order” prohibiting me from presenting evidence or witness testimony during my resentencing. I stated that over my dead body it would be prohibited – as this was my first opportunity in over 8 years (at this point) that I had the opportunity for an evidentiary hearing to prove what happened – in violation of law stating I had the right to an immediate evidentiary hearing. AAG Peterson’s request was denied. AAG Peterson stated only 30 minutes were needed to put on the state’s resentencing evidence as the state only had a “Robert Fithian” to testify against me. As I requested, the court scheduled a 4-day resentencing starting on November 26, 2012.

As Fithian was never mentioned before – even during trial/sentencing 8-years earlier – we contacted him. Fithian was recorded stating he is going to testify that I told him I was going to use my wolf control permit to shoot wolves in my hunting area to benefit my hunting business. I stated no wolves were shot in my hunting area and we had proof the state falsified trial evidence & trial testimony to frame me for this. Fithian stated he didn’t know this. I asked Fithian why the state was having him commit perjury and Fithian replied the state worked too hard to get the wolf control program going to see my case end it. Immediately after this recorded statement by Fithian the state appealed my sentence being overturned, Court of Appeals granted appeal even though it was past time limit for appealing, and COA put my resentencing on hold until they decide both appeals – the very appeals they now refuse to decide. So once again we were denied an evidentiary hearing to present the overwhelming evidence proving the state framed me in violation of nearly every constitutional right supposed to protect citizens from government abuse - and is now entangled in an expanding cover up.

After Fithian explained the state’s motive for framing me (protecting the wolf control program), we realized this must be to cover up the fact state officials running the program told me to kill wolves in areas not yet officially opened to the program. Animal rights activists had been filing lawsuits to shut the program down by claiming the state was justifying and running it fraudulently. My evidence would have proved them right. This explains precisely why the evidence of what state officials told me was destroyed (even after it was admitted into the court record) and explains why the state tried to make it seem the wolves were killed in my hunting area – to create a motive, other than following orders from state officials, for me to kill wolves outside the area officially open.

(10) All 3 Court of Appeals judges are falsifying sworn affidavits to cover up

August 22, 2012 is when I appealed – citing corruption above. COA held oral arguments on May 20, 2014. A week before oral arguments we sent out 44,000 mailings (all possible without a postal permit) inviting the public to attend and see the evidence of corruption themselves. This resulted in a crowd that couldn’t fit in the courtroom, as it only held about 300 – who applauded as I presented the evidence. AAG Mary Gilson broke down in tears trying to defend the state’s conviction of me.

It is now two and a half years and counting after oral arguments without COA decision - with all COA judges continuing to be paid to this day. Yet Alaska law (AS 22.07.090)

requires COA judges, to be paid, to swear an affidavit that nothing presented to them for decision has been undecided for more than 6-months. COA Clerk of Court Marilyn May confirmed the 6-month time limit for the COA to make a decision in my case started on May 20, 2014, the day of oral arguments.

In other words, all three COA judges are falsifying sworn affidavits (felony perjury, as 6-months after oral arguments we notified them AS 22.07.090 prevented them from being paid further if they didn't make a decision) every 2 weeks for the last 2 years so they can be paid while not deciding a case that includes evidence the only investigator of Alaskan judges for the past 27 years is covering up for corrupt judges.

*AS 22.07.090 Compensation. (b) A salary disbursement may not be issued to a judge of the court of appeals until the judge has filed with the state officer designated to issue salary disbursements an affidavit that no matter referred to the judge for decision has been uncompleted or undecided by the judge for a period of more than six months.*

(11) At oral argument I stated that at noon on the 4th of July 2014, unless the COA issued a decision beforehand, I would take back our business plane/property being held in the trooper impound yard at Ted Stevens International Airport. On May 29, 2014 AAG Gilson notified me the plane was taken from the impound yard and “moved to an undisclosed location.” Yet Rust’s Flying Service, flanking the impound yard, stated they watched troopers simply push the plane into a hanger inside the impound yard. When the 4th came without COA decision I headed out – even though Jackie made me promise not to do anything that day that would get me killed or put in jail. When I reached the trooper impound yard I was met by Anchorage Police Department Captain Kenneth McCoy; Ted Stevens Anchorage International Airport Police Lt. Xavier Brown; and other officers with assault rifles. McCoy and Brown stated they knew everything about my case, stated they thought their departments should be investigating the troopers, and stated that I was fighting for everyone’s rights. When contacted, the troopers claimed they had been ordered to not respond if I broke into their impound yard. After examining the gates/locks with McCoy and Brown in tow, I left peaceably – promising to be back if it was needed.

On July 9, 2014 - without notice of a hearing, opportunity to protest, or signature by a judge - Captain Bernard Chastain of the Alaska state troopers issued a written, 5-year restraining order prohibiting me from the public streets/areas surrounding the trooper impound yard. Chastain wrote, "No other person, including any law enforcement officers/officials, has authority to rescind or modify this prohibition."

(12) The evidence of corruption was delivered to Alaska's FBI. Assistant special agent in charge David Heller stated we must have a face-to-face meeting with Alaska’s attorney general to present the evidence and that to get the meeting we could state ASAC Heller thought it necessary. FBI Section chief Colton Seale stated: "We have received a number of complaints nearly identical to yours. In every case our investigation expanded rapidly and implicated nearly everyone." FBI Section chief Doug Klein stated, "It is obvious why Greenstein falsified her investigation. No one would believe you got a fair trial otherwise." The FBI stated evidence of trooper corruption should be given to trooper

internal affairs and that we needed to "exhaust" state remedies before they could step in. A COA decision is one of the last items needed before "exhaustion" of state remedies.

(13) As requested by Heller we asked for a meeting with Alaska's attorney general to present the evidence of corruption. Deputy attorney general Richard Svobodny denied our request, stating "allegations have been reviewed and found to be without merit" – without addressing the fact FBI ASAC Heller thought a face-to-face meeting with Alaska's attorney general was necessary so we could present the evidence.

(14) As requested by the FBI we phoned trooper internal affairs so we could send them the evidence of trooper corruption. Sole trooper internal affairs investigator Lieutenant Keith Mallard stated on the phone, "I've heard of your case and all you have are sour grapes over being convicted. I will not dignify your evidence with an address to send it to." Lt. Mallard then hung up and refused subsequent phone calls.

(15) After examining the evidence Representative Mike Chenault stated that only a public investigation by an independent commission could deal with such high-level corruption.

(16) Recent proof has surfaced (previously hidden emails of the prosecutors and troopers proving guilt) that many of the same prosecutors/troopers involved in my case are doing even worse things in other cases – such as secretly rendering aircraft unsafe to fly and, while knowing it was unsafe, letting pilots and passengers fly in them - and afterward falsifying sworn affidavits to deny they knew the aircraft was compromised.

(17) On January 22, 2015 a criminal complaint against all 3 COA judges - along with the evidence against Greenstein, Murphy, Gibbens, and Leaders - was filed during a 5-hour face-to-face meeting with Alaska State Trooper Colonel Steve Bear. Witnesses whose testimony Greenstein falsified also attended and testified during this meeting.

Colonel Bear stated he would investigate and report his findings by February 5, 2015. To date Colonel Bear has refused to do so - but did state months ago through his secretary that he must first talk with his own private attorney before talking. The witnesses and I believe he was warned that investigating Alaska's most powerful judges and judge investigator for corruption could harm his career, freedom, and/or life.

(18) Several months ago we requested Governor Bill Walker and Representative Chenault form an independent commission to publicly investigate judicial corruption in Alaska. Governor Walker's aide Angela Hull, who took our request, stated the governor's office has received numerous complaints against judge investigator Greenstein. To date we have had no response from either Governor Walker or Representative Chenault.

### **Conclusion**

Thank you in advance for considering the above facts and attached evidence. We would be more than willing to meet with you in person to present, explain, and answer questions about the evidence, as FBI ASAC Heller thought necessary.

Please bear in mind how my family, and those following this, feel about the above actions of individuals responsible for providing fair trials and appeals in accordance with our nation's constitution; about the actions of individuals and entities that are responsible for investigating, prosecuting, and disciplining those that conduct trials and appeals – (especially Greenstein, 27 years and counting as Alaska's only judge investigator); and about how long justice has been denied (over 12 years so far by things such as COA giving state, over our objection, 380 days to file a single brief that Appellate Rule 217 required be filed within 20 days - and now the current COA 2.5 year and counting delay).

You should know that at one point my wife Jackie and I discussed if we should buy food so our baby daughters wouldn't go hungry or if we should buy heating oil so they wouldn't get cold, because we no longer had the money to buy both. Because our thriving business and every penny we had was gone. Because the state told me they needed my help. Because I did exactly what state officials told me to do. Because exonerating true evidence was destroyed. Because incriminating false evidence was manufactured. Because our attorneys were threatened. Because in all these years we have never been given a single public evidentiary hearing during which we could put the above people under oath, confront them with the evidence/witness testimony, and ask them to explain – even though any one of the issues above requires an evidentiary hearing be conducted.

A growing number realize just how incredibly important it is to Alaska's future, and the future of our nation, for the above to be fully, fairly, and publicly litigated and/or investigated. We will resolutely maintain our course in requiring this no matter what we must do to obtain it, while continuing to carefully document the increasingly bizarre and tortured cover up. For a trial in which evidence is destroyed and falsified and attorneys are threatened is no better than receiving no trial at all. The COA falsifying pay affidavits indefinitely to permit this evil to continue is also unacceptable. Scared as I am, I will return to the trooper impound yard if that is what it takes to expose what is going on.

Dale Dolifka, our business attorney, is a former criminal defense attorney who personally examined the evidence. It is imperative you know his sworn testimony in front of Superior Court Judge Stephanie Joannides with AAG Peterson cross-examining him:

*“Other than just an outright payoff of a judge or jury it is hard to imagine anyone being sold down the river more. Your case has shades of Selma in the 60's, where judges, sheriffs, & even assigned lawyers were all in cahoots together. The reason why you have still not resolved your legal problems is corruption. You have a [Appeals] Court sitting there looking at a pile of dung & if they do right by you & reveal you know you have the attorneys going down, you have the judges going down, you have the troopers going down. Everyone in your case has had a political price to pay if they did right by you. You had a series of situations which everyone was doing things to protect everyone rather than you because there was a price to pay. I walked over here & lawyer A says my God they're violating every appeal rule ever. How can it be like this? I think almost everyone goes back to that original seminal issue that how the hell did this case go on when it appears to lay people & to me a lot of it was built on a lie in a sworn affidavit? And I*

*don't know how you possibly had due process with regard to the seizure of your airplane. I have read it and read it and read it. I've – I could write a doctors brief on it and I can't – and – and I'm just wore out trying to figure it out. Cause I – I can't. You're just one of many. It's absolute unadulterated self-bred corruption. It will get worse until the sleeping giant [public] wakes up. Everyone is scared and afraid."*

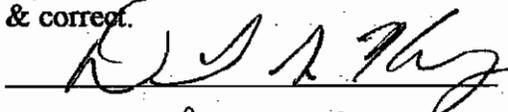

We hope that you will let Mr. [REDACTED] or myself know if you intend to investigate, who you investigate, what you find out if you do, and what, if any, action you intend to take.

It may be the best, or only, solution is that expressed by Representative Chenault - an independent commission, made up of persons from outside Alaska with the power to subpoena and grant immunity, tasked with publicly investigating the above and other judicial corruption within Alaska.

Would you join us in asking Governor Walker and/or Alaska's legislature to form such a commission? Please let Mr. [REDACTED] or I know if you do or don't.

**Declaration Under Penalty of Perjury**

I, David S. Haeg, declare under penalty of perjury that the information above is true & correct.

Executed at Browns Lake, Alaska on November 29, 2016.
